A

Abacá industry of Philippine Islands. Cox. *285
Accelerators. Vulcanization: (see under Rubber)
Acetaldehyde from acetylene. Plauson and Vielle. (B. P.) *938
Acetic acid:
——Catalysts for mfr. of. Plauson and Vielle. (B. P.) 896
——From acetaldehyde. (B. P.) 708
——From acetaldehyde. Dreyfus. (B. P.) 708
——From acetylene. Plauson and Vielle. (B. P.) *938
——From suction gas plants using wood. Roberts. (B. P.) *272
Acetone:
——Purification of. Duclaux and Lanzenberg. (S.) 34
——From starch. Nasmith. (N.) 534
Acetyl chloride, mfr. of. Kaufmann (P.) 36
Acid-resisting materials:
——Alloy for chemical apparatus. Fahrenwald. (P.) 36
——Iron:Chromium alloy articles. Clement. (P.) 1028
Aeronautics. Contribution of chemistry to. Moureu. (S.) 34
Agassiz Medal to be presented to Prince of Monaco 668
Air Reduction Co. acquires National Carbide Corp. 801
Alaska:
——Wood pulp mill at Juneau 535
Alberta:
——Oil and gas claims in. 534
Alcobronze (N.) 220
ALCOHOL:
——Alcohol and chemical industries. Doran. (N.) 829
——Changes considered in methods of distribution 185
——Changes in Regulation 60 176
——From nipa palm. Gibbs. (N.) 404
——From wood waste. Yields of 212
——Preventing use as intoxicant. Kramer. 373
——Volstead supplementary prohibition bill:
—— Objectionable sections 1076
—— Protest meeting. N. Y. section, A. C. S. 1088
—— Committee on Rules reverses attitude on 1159
Alizarine from benzene. Schaffer. (N.) 831
Alkaloids:
——Separation of. (B. P.) 402
Allied Chemical & Dye Corp. directors 7
Alloys:
——Effect of metallic structure upon properties. Rawdon. *523
——Properties of. Tabulated. Woodward. 820
——Ternary. Coefficients of equivalence in. Guillet and Portevin. (S.) *609
Alsace:
——Alsatian potash industry. Vigneron. *655
——Potash production, 1920. 921
Alsberg, Dr. Carl L., becomes director of Stanford University Food Research Institute *648
Alum, Potash, Recovery at Tonopah. Duncan *529
Alumina from basic aluminum nitrate. (B. P.) 38
ALUMINUM:
——Causes of piping in ingots. Edwards and Gammon *338
——Density from 20 to 1,000 deg. C. Edwards and Moormann. *61
——Gases in aluminum furnaces and their analysis. Anderson and Capps *1019
——Recrystallization in. Carpenter and Elam. (S.) 1117
ALUMINUM—*Continued:*
——Use for electric transmission lines. Dusaugey. (S.) 313
——Coating metals with. (B. P.) 984
——Production, 1920 536
Aluminum nitride research. McCormack. (N.) 757
Aluminum sulphate used in water-purification, Illinois, 1920. 856
American Association for the Advancement of Science:
——Chicago meeting. Report. 83
AMERICAN CERAMIC SOCIETY:
——Columbus meeting:
—— Announcement 316
—— Report. 419
——Canton meeting:
—— Announcement 1073
AMERICAN CHEMICAL SOCIETY:
——Rochester meeting:
—— Symposiums on drying and filtration planned 87, 358
—— Preliminary program 533
—— Addition to program 577
—— Program 710
—— Report *821
——New York meeting:
—— Hotel accommodations 1030
—— Gas and fuel symposium planned 1118
AMERICAN ELECTROCHEMICAL SOCIETY:
——Atlantic City meeting:
—— Preliminary announcement 316
—— Program 623
—— Report *813
——Lake Placid meeting plans 988
AMERICAN ENGINEERING COUNCIL:
——Progress of. 39
——Assumes activities of Engineering Council 86
——Opens office in Washington 229
——To meet in Syracuse 229
——Wallace elected secretary *357
——Begins war on industrial waste 358
——Hoover resigns as president 709
——Executive board meets 709
American Engineering Standards Committee:
——Activities of 665
AMERICAN INSTITUTE OF CHEMICAL ENGINEERS:
——Detroit meeting:
—— Program 939
AMERICAN INSTITUTE OF MINING AND METALLURGICAL ENGINEERS:
——New York meeting:
—— Announcement 227
—— Report 329
AMERICAN LEATHER CHEMISTS' ASSOCIATION:
——Atlantic City meeting:
—— Preliminary program 854
—— Final program 1030
—— Report *1094
American Leather Research Laboratories 27
American Mining Congress:
——Chicago convention plans 490
AMERICAN OIL CHEMISTS' SOCIETY:
——Aims and organization 535
——Chicago meeting:
—— Plans 713
—— Report 957
AMERICAN SOCIETY OF MECHANICAL ENGINEERS:
——Chicago meeting:
—— Steam equipment codes to be discussed 624
—— Plans 753
—— Inspection trips planned 800
—— Report 1031
American Society of Refrigerating Engineers:
——Chicago meeting 1074
AMERICAN SOCIETY FOR STEEL TREATING:
——Indianapolis meeting:
—— Announcement 449
—— Program 1033
AMERICAN SOCIETY FOR TESTING MATERIALS:
——Asbury Park meeting:
—— Report 1145
Amines, Aromatic, Mfr. of. Moore. (B. P.) 796
AMMONIA:
——Oxidation at Oppau, Germany *348
——Distilling column for. Crupe. (P.) *851
——Synthetic:
—— Mfr. at Oppau, Germany I. *305
II. *347
III. *391
—— Status of Claude process. Claude. (S.) 706
—— Catalyst for. (B. P.) 402, 489, 1116
Ammonia-soda process. Nishigawa (P.) 133
——Modified. Claude. (B. P.) 1156
Ammonium chloride:
——As fertilizer 16
——Mfr. at Oppau, Germany *391
Ammonium nitrate:
——Mfr. at Oppau, Germany *392
Ammonium phosphate as fertilizer 12
AMMONIUM SULPHATE:
——Mfr. at Oppau, Germany *391
——Saturators for. Becker. (P.) 664
——Drying. Wilton. (B. P.) *621
——Purification of. Lessing. (B. P.) *315
——Semi-direct method. (B. P.) *402
Anaconda Copper Mining Co. extensions 898
Annual Tables of Constants and Numerical Data 853, 986
Anthranol, Mfr. of. Perkin. (B. P.) 226
Anthraquinone, mfr. of. (B. P.) 937
——Temperature control in catalytic mfr. of. Downs. (P.) *1027
Anthraquinone derivative, Synthetic. Weiss, Bailey and Potter. (P.) 35
Anthraquinone derivatives and dyes. Casella. (B. P.) 489
Antimony ores. Tariff problems 1003
Apparatus, Duty-free, For colleges, Richards 52
——Comment. Smith. 284
Argentina:
——Vegetable oil industry in 612
Armour Fertilizer Works. Jones I. *333
II. *379
——Correction. Jones 548
Arsenic:
——Removal from zinc electrolyte by H_2S. Hanley *693
——Automatic detector for arsenic in gases. Logan. (B. P.) 38
——Single potential of. Kahlenberg. (N.) 83
Arsenic compounds, Organic:
——Arsenobenzene derivatives. Haus. (B. P.) 852
Arsenic trioxide:
——Mfr. of. Vie. *527
——Tariff hearings on. 403
——Plant at Toulon, Nev. 536
Artillery cartridge cases. Read and Tour. (N.) 330
Atlas Powder Co. to produce refining carbon 1119
Atoms and metals. Jeffries and Archer *507

B

Bacteria as chemical reagents. Kendall 56
Bain, H. Foster, becomes director, Bureau of Mines *179
Bamboo paper pulp plant in Burma 250
Barrels for petroleum products, mfr. of. Baxter. (N.) 360
Barrett Co.:
——Board of directors *7
——Shadyside research laboratories. Weiss and Downs. *150
Basic Refractories, Inc., Plant destroyed by fire 273
Batteries, Secondary:
——Drying plates for. *267
——High-capacity storage battery. Hazelett. (N.) 819
Bauxite, Trade notes on. Coggin. (S.) 707
——Tariff problems 1004, 1006
BELGIUM:
——Coal production 608
——Experiments on palm oil as motor fuel. 400
——Foreign commerce in 1920 845
——Metallurgical industries in 1920 604
——Progress of chemical industry 1070
——Status of iron and steel industry 387
Belting:
——Use in fertilizer plants. (S.) 706
Benzanthrone, Purification of. Daniels. (P.) 488
BENZENE:
——New type of benzene still in European operation. Thau. *1013
——Recovery from acid sludge. Crook. (B. P.) *226
——Removing sulphur compounds. (B. P.) 272
Benzoic acid, Chlorine-free, Synthesis from benzene. McKee and Strauss. I. *638
II. *697
Bichromates, mfr. of. Datta. (B. P.) 796
BIOGRAPHICAL:
——Alsberg, Carl L. *648
——Bain, H. Foster. *179
——Ciamician, Giacomo 549
——Curie, Mme. M. S. 1132, 1137
——Feiker, Frederick M. *913
——Hadfield, Sir Robert *1147
——Le Chatelier, Henry Louis 549
——Lewis, Gilbert N. *869
——Lloyd, John Uri 550
——Nichols, Ernest Fox *682
——Nichols, William Henry 550
——Smith, Edgar Fahs *183, 550
——Solvay, Ernest 549
——Thompson, Benjamin, (Count Rumford) 252
——Thorpe, Sir Edward 549
——Wallace, Lawrence W. *357
——Weston, Edward 550
——Whitney, Willis R. *99

*Illustrated; (P.), (B. P.)—United States and British patents respectively; (S.)—Synopsis; (N.)—Papers read at society meetings but not printed in full.

Bismuth concentrates, Chinese, Refining. Darling. 1108
Bleaching cotton goods, Chlorine control in. Schroeder. *925
Bleaching dyed cotton fabrics. Matthews. (N.) 832
Bluing and browning steel articles. Cornell. 301
Book Reviews. 41, 137, 230, 318, 362, 405, 449, 492, 536, 580, 668, 714, 982, 1029, 1120.

BOOK REVIEWS:
——Allen. Recovery of Nitrate from Chilean Caliche. 1161
——Andros. Fuel Oil in Industry. 449
——Camp and Francis. The Making, Shaping, and Treating of Steel. 137
——Clark. The Determination of Hydrogen Ions. 714
——Cushman. Chemistry and Civilization 230
——Foote, Fairchild and Harrison. Pyrometric Practice. 1029
——Goodale and Speer. Chronology of Iron and Steel. 580
——Harrow. Eminent Chemists of Our Time. 318
——Heriot. The Manufacture of Sugar from the Cane and Beet. 405
——Hoyt. Metallography. Part II. 1160
——Hultgren. A Metallographic Study on Tungsten Steels. 1120
——Johnson. Rapid Method for the Chemical Analysis of Special Steels, Steel-making Alloys, Their Ores and Graphites. 668
——Macleod. Textbook of Chemistry for Nurses and Students of Home Economics. 362
——Matthews. Application of Dyestuffs 318
——McCoy and Terry. Introduction to General Chemistry. 983
——Osann. Lehrbuch der Eisen und Stahlgiesserei. 536
——Patterson. A French-English Dictionary for Chemists. 1121
——Ralston. Electrolytic Deposition and Hydrometallurgy of Zinc. 492
——Scott. The Journal of the Institute of Metals. 449
——Smith, Priestley in America. 137
——Speer and Goodale. Chronology of Iron and Steel. 580
——Sutermeister. Chemistry of Pulp and Paper Making. 580
——Van der Bijl. The Thermionic Vacuum Tube and Its Applications. 669
——Whitby. Plantation Rubber and the Testing of Rubber. 41
—— Comment. Whitby. 417
——White. Silver, Its Intimate Association With the Daily Life of Man. 982
——Windett. The Open Hearth—Its Relation to the Steel Industry—Its Design and Operation. 982
——MacRae's Blue Book. 406
——The Microscope. 1161
——Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists. 982
——Proceedings of the Chicago Meeting of the Industrial Relations Association of America. 492
——Research and Methods of Analysis of Iron and Steel. 1029
Borax mfr. at Owens and Searles Lakes. *685
Boric acid from boro-natro-calcite. Schott & Ges. (B. P.) 489

BRASS:
——Season cracking of. Beckinsale and Mallinson. *976
——Ternary brasses. Guillet. (S.) *177
—— Nickel brasses. Guillet. (S.) *261
—— Cobalt brasses. Guillet. (S.) *439
—— Coefficients of equivalence in ternary alloys. Guillet and Portevin. (S.) *609
——Influence of gases on high-grade. Ramford and Ballard. (S.) 132
——Scrap. Treating. Ralston. (P.) 1115
Bregeat process for solvent recovery. Rolleux and Dort. *916
Brinell hardness tester, Modified. (B. P.) *226
British-American Nickel Corporation, Development of. 228
British Chemical Industry. 85, 196, 418, 594, 812, 1001.

BRITISH COLUMBIA:
——Paper possibilities. 183
——Prince Rupert Pulp & Paper Co. sulphite mill. 492
——Imperial Oil Co. refinery to resume. 492
——Industrial notes. 536, 1158
——Sodium Mining & Products Co. plant 137
Bromine in 1920. 1108
Browning and bluing steel articles. Cornell. 301
Buenos Aires exposition delayed. 533
Buffalo University chemistry building. 899

BUREAU OF MINES:
——Cryogenic laboratory dedication. *914
——H. Foster Bain becomes director of. *179
——Appropriations reduced. 40
——Appropriation asked for study of nonmetallic structural materials. 797
——Discussion of western metallurgical problems. 185
——May study Black Hill ores. 580
——Officials to visit mining experiment stations. 577
——Technical motion pictures. 1031

BUREAU OF STANDARDS:
——Recent work of. Wagner. (N.) 799
——Standard steel and bronze samples. 160
——Standard iron and steel samples. 492
Burgess nominated for Tariff Commission. 1157
Burns, Acid and alkali, Treatment of. Smith. 748
——Comment. Goetschius. 868
Butyl alcohol and acetone from starch. Nasmith. (N.) 534

C

Cadmium lithopone. Webster. 372
Calcium carbide, mfr. in blast furnace. Norton. (P.) 1027
Calcium requirement of man (S.) 129
Calcium silicide as deoxidizer. 980
Calomel electrode. Laubengayer. (N.) 819
Camphor:
——New tariff proposed. 360
——Production in the United States. 185
——Taiwan production 926
Camsellite, A new mineral. 1158

CANADA:
——Coal trade for 1920. 599
——Foreign trade, 1920. 564
——Gas industry in 1918. 785
——Oil field developments in. 856
——Pulpwood resources of. 208
Cans for petroleum products, mfr. of. Baxter. (N.) 360
Canvas, Treated, Water resistance of. Veitch. (N.) 831
Capillary flow and surface tension. Washburn (S.) 314
Capital Increases, etc. 412, 456, 499, 544, 588, 631, 720, 764, 864, 907, 951, 995, 1040, 1084, 1128, 1168.
Carbon bisulphide:
——Mfr. in blast furnace. McElroy. (P.) 707
Carbon monoxide detection. Hoover. (N.) 830
Caribbean ports, Trade trip to. 275
Cartridge cases, Artillery. Read and Tour. (N.) 330
Casein specifications and tests. (N.) 727
Casein compounds. Hoffmann-La Roche. (B. P.) 708
Casein glue affected by chemical reaction 964
Castor oil:
——Castor bean production in Java. 384
Catalysis:
——Catalyst for synthetic ammonia. (B. P.) 402
(B. P.) 489
——Temperature control during. Downs. (P.) *1027
Cellulose:
——Action of hydrobromic acid on. Hibbert. (N.) 834
——Standard cellulose proposed. Johnsen. (N.) 834
——Tropics as future source of. Whitford. (N.) 833
Cellulose acetate:
——European practice. Drinker. (N.). 834
——Dyeing. (B. P.) 1116
——Solvents for use with. Dreyfus. (B. P.) 708
Cellulose Section, A. C. S.:
——Rochester meeting report. 833
Cement:
——German industry 688
——State-owned plant in South Dakota. 667
Cements:
——Hydrocarbon. Barrie and Chadwick. (B. P.) 621
Central Leather Co. report 448

CERAMICS:
——Bureau of Mines may study non-metallic structural materials 797
——Ceramic appropriation fails in Ohio. 578
——Ceramic exposition in Newark, N. J. 801
——Co-operative work in 668
——Co-operative work planned 492
——Electric heating in. Scott. 400
——Problems to be solved. Minton. (N.) 419
——Research in ceramic decorative processes. Rhead. (S.) 1117
——Research on Colorado ceramic resources 579
Chandler Medal awarded to Dr. F. G. Hopkins 668
Charcoal absorption process for gasoline. Burrell, Oberfell and Voress. *156
Charts:
——Calculation of percentage removal of a constituent from a mixture. Van Arsdel *846
Chemical and Allied Industrial Markets. 42, 90, 139, 187, 230, 275, 319, 362, 406, 450, 493, 537, 582, 625, 670 714, 758, 801, 857, 901, 945, 989, 1034, 1078, 1121, 1162.
Chemical companies formed, New. 943, 1120
Chemical disarmament. Lefebure 5
Chemical engineering education survey. 1047
Chemical imports and exports:
——January, 1921 535
——February 757
Chemical literature, Investigations of. Barrows I. 423
II. 477
III. 517
——Correction. Van Patten 548
Chemical organization and management. Whittaker. (N.) 136
Chemical preparedness. Wadsworth. (N.) 822
Chemical Products Co. closes plant. 491
Chemical reactions, Effecting under pressure. Schellenberg. (B. P.) *984
Chemical tonnage on Class 1 railroads. 779

CHEMICAL WARFARE SERVICE:
——Fries advocates plan to stimulate inventive initiative 89
——Service school opens. 136
——A. C. S. advisory committee to meet 228
——Resolution to be submitted to A. C. S. 273

CHEMICAL WARFARE SERVICE—*Continued*:
——Appropriation 273
——Investigating alleged gas injuries. 361
——Needs commissioned personnel. 447
——Report by War Dept. committee on expenditures 491
——Chemical warfare exhibit *512
—— At Wilmington 942
—— At House Office Building 943
——Dinner:
—— Announcement 665
—— Report *754
——Legislators visit Edgewood Arsenal. 624
—— Senator Lenroot's opinion of visit 668
——A. C. S. committee to visit Edgewood 713
——To concentrate work at Edgewood. 709
——To test gas bombs in aerial warfare 899
——General staff college hears of 897
——Appropriation 941
——Anniversary exercises at Edgewood Arsenal 1073
Chemical Warfare Service Association proposed 580
Chemicals moved through Panama Canal in March 985
Chemists:
——Who is a chemist? McCormick. Perino 416
—— Comment 593
—— Comment. Kaempffert 956
——Compensation of chemists and salesmen. Ferguson. 460
—— Comment. Chemist. 637
——Business and chemists. Giston. 461
Chemists Club:
——Tenth annual meeting:
—— Announcement 448
—— Report *549
Chemistry, Language of. B. T. B. 548
Chewing gum. Gutta-gaekwar as base for. Dannerth 308
Chia seed oil. Industrial possibilities of. 82
Chicago Chemists Club:
——Smoker 361
——Annual meeting 667
——Ladies' night 756
——Hike over dunes 987
Chicago Section, A. Cer. S.:
——February meeting. Uses of lead. 317
——May meeting 1075
Chicago Section, A. C. S.:
——January meeting. Home remedies. 229
——February meeting. Redmanol. 448
——April meeting. Photochemistry 800
——May meeting. Oxidation. 986
Chicago University reports favorably on research plan 942
Chilean nitrate:
——Exports for 1920 557
——Recovery of. Gringioni. (B. P.). *532
Chimneys:
——Steel, In copper plants. McGregor. (N.) 329
China,
——Economic and political conditions. Chan. (N.) 136
——Egg products industry 16
——Sugar project in 845
Chinawood oil, Solidified. Scobel. 532
Chloridizing complex ores. Hamilton. (B. P.) 271

CHLORINE:
——Control in bleaching cotton goods. Schroeder *925
——Attempt to activate photometrically. Wendt. (N.) 82
——Electrolytic chlorine:caustic cells:
—— Rise and development of the electrolytic alkali and chlorine industry in Europe. Kershaw. I. * 77
II. *119
III. *167
—— Comment. Hutchins. 506
—— Marsh type. Marsh. (N.) 819
Chloroform from isopropyl alcohol. Phillips. (P.) 36
Chromite, Tariff problems. 1004
Civil Service Examinations 447, 491, 622, 666, 899.
Classifiers, Upward current ore. Jalabert. (B. P.) *938
Clay, Aging of. Spurrier. (S.) 620
Clay storage within factory. (S.) 260
Cleaning metallic materials 209
Cloths for mechanical uses. Cox. 613
Coal:
——Extraction of hydrocarbons from. Plauson and Vielle. (B. P.) 937
——Pulverized coal 251
—— Gasification of. Bourcoud. *601
Coal-tar:
——Research at Shadyside. Weiss and Downs. *150
——Chemicals in 1919. Tariff census. (S.) 180
Cobalt:
——And nickel, separating. Udy and Ralston. (P.) 489
Cobalt brasses. Guillet. (S.) *439
Cobalt oxide, Tariff problems 1003
Coconut oil:
——Mill situation in Dutch East Indies. 378
——Problems in preparation of copra and. Brill. 567
Coke:
——Byproduct coke plant of Jones & Laughlin Steel Co. Meissner *891
——Byproduct coke plants in United States 1056
Coke ovens:
——Charging car for. Becker. (P.) *1115
——Wallace retort. Wallace. (P.) 36
——Construction of. Koppers. (P.) 664
Colloidal clay as paper filler 580

COLLOIDS:
——Survey of physics and chemistry of. Svedberg 23

*Illustrated; (P.), (B. P.)—United States and British patents respectively; (S.)—Synopsis; (N.)—Papers read at society meetings but not printed in full.

COLLOIDS—*Continued:*
——A. C. S. symposium on contact catalysis (N.) ... 837
——Border lines of colloid chemistry. Comment. Loeb. ... 681
——Industrial applications of. Holmes. (N.) ... 579
——Colloids. Holmes. (N.) ... 1096
——Preparation of colloidal suspensions by grinding. Plauson and Vielle. (B. P.) ... 852

Color:
——Colloid chemistry and. Bancroft. (N.) 824
——Measurement of. Mees. (N.) ... 824
——Chemical constitution and. Lewis.. *871
Columbia University:
——New chemistry building for ... 797
Condenser, multiwhirl subcooling ... *267
Connecticut Valley Branch, T. A. P. P. I.:
——January meeting. Rubber rolls.... 228
——February meeting. Drying of paper. 361
——April meeting. Dyes ... 800
——May meeting. Water purification... 1077
Constants, Chemical and physical:
——Annual Tables of ... 853, 986
——Critical tables of ... 1158
Construction and operation. 47, 96, 144, 192 235, 280, 324, 367, 411, 455, 498, 542, 587, 630, 675, 719, 763, 806, 863, 906, 950, 994, 1039, 1083, 1127, 1167.
Connecticut Valley Section, A. C. S.:
——February meeting. X-Rays. ... 317
——April meeting. Corrosion ... 755
Containers, Deceptive, Congress may ban 856
Coors Pottery Co. reduces force ... 492

COPPER:
——Influence on some physical properties of iron and steel. Richardson. ... 565
——A. S. T. M. specifications submitted to A. E. S. ... 448
——Cerro de Pasco Copper Corp. production ... 644
——Teste of brazed copper sheets for roofing ... 1160
——Coating with. Smith. (B. P.) ... 315
——Electrolytic. Cowper-Coles. (B. P.) 795
Copper:aluminum alloys:
——Mechanism of solidification of. Edwards ... *217
——Alcobronze (N.) ... 220
Copper:nickel allovs:
——Notes on. Merica. ... *558
Copra and coconut oil. Problems in preparation of. Brill ... 567
Coaquito nut industry in Mexico ... 345
Cordage fiber industry of Philippine Islands. Cox. ... *285
Corn products:
——U. S. export trade in corn sirup and corn sugar ... 485
Corn Products Refining Co. operating at 50 per cent ... 988
Costs—A short study of factory economics. Peterkin. ... 253

Posts, wooden, for plant inclosures..... 1070

POTASH:
——Alsatian industry. Vigneron *655
——Alsatian production during 1920.... 921
——Domestic producers discouraged 668
——Extraction from leucite. Blanc and Jourdan. (B. P.) 225
——From greensand. Shreve. (N.) 831
—— Correction 964
——German sales in 1919 166
——In Illinois shales 779

POTASH—*Continued:*
——Plants at Owens and Searles Lakes . *683
——Potash in 1919. Hicks and Nourse.. 216
——Potash situation. Brown. (N.) ... 359
——Potash supplies, Foreign and domestic *12
——Problems in handling potash brines. Teeple. (N.) 229
——Production, 1920 359
——Outlook for 1921 1120
——Tariff problems 1005
Potash alum, Recovery at Tonopah. Duncan *529
Potassium carbonate, Mfr. Larum. (B. P.) 795
——U. S. Imports, 1920 1008
Potassium sulphate, Mfr. from KCl. (B. P.) 708
Priestley's theory, Commercializing. Reinberg 769
Proteins, Chemical and physical behavior of. Loeb *550
Publications, New. 48, 503, 544, 632, 907, 952, 996, 1168.
Pumps:
——New principle of rotary pump construction. Farkas *1025
——Automatic motor pump *356
Pyrites:
——Heat of dissociation of. Kamura... *437
——Oppose duty on 855
——Tariff problems 1005
Pyrogenic reactions, Preventing carbon-deposition during, Fischer. (B. P.) 226
Pyrometers:
——Calibrating base metal thermocouples, Marsh 1071
——Recording, setting for cold-junction temperature. Marsh 1152

Q

Quebec:
——Pulp-wood business at standstill 797
——Pulp and paper developments, 1920.. 1155

R

Radium:
——Presentation of Gibbs Medal to Mme. Curie *1132
——Experimental lecture on..... 577
——Production 624
Radium emanation, Coloring gem stones with 988
Rails, Wheel-burnt. Howard. (S.) *850
Rancidity, Cause and prevention of. Kerr. (N.) 958
Reactions, Facilitating by radiations. Statineanu. (B. P.) *621
Recent chemical and metallurgical patents, 35, 133, 225, 271, 314, 402, 488, 532, 576, 621, 664, 707, 752, 795, 851, 895, 937, 984, 1027, 1072, 1115, 1156.
Redwood, Phenols from. Hund. (P.) .. 489
Refractometry. Valentine. (N.) 799

REFRACTORIES:
——Electric furnace. Pike 148
——Coke-oven, Testing. Harvey. (N.). 420
——Molds for magnesite, chrome and silica brick. Ayars. (N.) 420
——Refractories division, American Ceramic Society 420
——New German refractory product..... 1070
——Carborundum, Bond for. Hartmann. (P.) 1115
——Lubrication during extrusion of. Anderson. (P.) 488

RESEARCH:
——Coal-tar research at Shadyside. Weiss and Downs *150
——Promotion of scientific research. Hoskins and Wiles 689
——Dependence of modern industry on. Little (N.) 1142
——Importance of scientific research. Mees. (N.) 274
——Research. Smith. (N.) 318
——Research in explosives and nickel. Reese. Wadhams. (N.) 317
——Research in Federal service. Alsberg. (N.) 957
——Standardization and. Stratton. (N.) 1142
——A capital investment or an operating expense? Berkeley 506

——Final decree in Salt Lake smoke suits 709

SOCIÉTÉ DE CHIMIE INDUSTRIELLE:
——February joint meeting 318

SOCIETY OF CHEMICAL INDUSTRY:
——February joint meeting 318
——Canadian and New York meeting:
—— Plans 890
Soda ash mfr. at Owens and Searles Lakes *685
Sodium carbonate:
——British Columbia evaporation plant.. 137
Sodium compounds, 1920 statistics 940
Sodium nitrate: (see also Chilean nitrate):
——Recovery of. Gringioni. (B. P.)... *532
Sodium nitrite, License required for importation 798
Sodium silicate, Mfr. of. Phillips and Rose. (B. P.) 38
Sodium silicate, Relation of structure to free alkali in. Stericker. (N.) .. 830
Soldering fluxes. Ladon. 981
Solders:
——For aluminum 1122
——For aluminum. Ansell. (B. P.)... 272
——For enamelware. Johnson. (B. P.) 621
Solvents, Volatile, Recovery of:
——Bregeat process. Rolleux and Dort.. *917
——By mixture containing sperm oil, etc. Sadtler. (P.) 489
Southern California Edison Co. water-power permit 374
Spectro-photometer:
——Direct-reading. Priest. (N.) 942
——Use of. Mathewson (N.) 942
Spectrum analysis, Quantitative. Meggers. (N.) 942
Sponges, Rubber. Ryall. (B. P.) 37
Stamford Chemical Society officers..... 135
——June meeting 1119
Standards, International 1157
Standard Chemical Co. radium production 624
Steffens process, Montgomery *605
Stocks, Industrial, Distribution of..... 447

SUGAR:
——Extraction of juice from the sugar beet. Montgomery *435
——Refinery practice in beet sugar mfr. Montgomery. *469
——Recovery from beet molasses. Montgomery. *605
——Preventing deterioration. (S.) 76
——From nipa palm. Gibbs. (N.) 404
——Infusorial earth for filtering. Coates. (N.) 227
——French beet and sugar output..... 118
——Reconstruction of French refineries.. 567
——Recovery of French beet sugar industry. 599
——Electrified sugar mill in Central America 1008
——Chinese beet-sugar project 845
——Two cent duty asked 856
——Waste recovery at Holland St. Louis Sugar Co. plant 756
——Exports from Cuba to U. S. 313
——Imports in 1920 514
——United States production, 1920 428
——Census report on beet and cane sugar industries. 1017
Sugar Chemistry Section, A. C. S.:
——Rochester meeting report 889

*Illustrated; (P.), (B. P.)—United States and British patents respectively; (S.)—Synopsis; (N.)—Papers read at society meetings but not printed in full.

SULPHUR:
——Recent advances in American sulphur industry. Bacon and Davis. *65
——Recovery by flotation at Tonopah. Duncan. *529
——Growth of American industry 1021
——Inoculated sulphur as fertilizer 10
——Moving pictures of Texas deposit shown at T. A. P. P. I. 727
——Refinery at Portland, Ore. 22
Sulphur burners. Feeding device for. Chappell. (P.) *752
Sulphur dioxide:
——May have therapeutic value. Ionides. 284
SULPHURIC ACID:
——Mills-Packard water-cooled chambers. Fairlie. *786
——Mfr. at Armour Fertilizer Works... *333
——Ceco system for handling *380
——Influence of gelatine on transference number of. Ferguson. (N.) ... 838
——Municipal plant proposed in England 780
——Cleaning burner gases for. Brown. (P.) 576
——Vanadium catalyst for contact process. Slama and Wolt. (P.) 752
Sulphuryl chloride. Mfr. of. Durrans. (P.) 488
Sumac production in Sicily 604
Superpower Survey:
——Progress report on 445
——Meeting 941
Surface films as plastic solids. Wilson. (N.) 825
Surface tension and capillary flow. Washburn. (S.) 314
Swansea tin plate industry 485
SWEDEN:
